PROFILE

Aspiring Software Developer with a strong foundation in JavaScript, React, Node.js, Python, and object-oriented programming. Experienced in building responsive full-stack applications, developing RESTful APIs, and working with Git and databases. Demonstrated ability to learn and apply modern technologies in agile, team-based environments. Enthusiastic about innovation and eager to contribute to TD's Enterprise Innovation team while continuing to grow skills in GenAI, mobile development, and emerging technologies.

SKILLS

Programming Languages: Python, Java, SQL, C, C++, C#, JavaScript, HTML, CSS

Frameworks & Libraries: React, Node.js, .NET, Material-UI (MUI), Scikit-learn, TensorFlow, Pandas, Matplotlib

Database Technologies: Firebase, MongoDB, MySQL, PL/SQL

AI/ML & Data Science: Supervised Learning, Model Evaluation (Cross-Validation, ROC), Time Series Forecasting

Software Testing & QA: TDD, Black/White Box Testing, Test Automation (JUnit, Selenium), QA Lifecycle, Agile QA

Networking & System Integration: TCP/IP, Socket Programming, IoT Development, Packet Analysis

Algorithms & Data Structures: Lists, Trees, Hash Maps, Graphs, Backtracking, Divide & Conquer, Big-O Analysis

Cloud: Microsoft Azure, AWS

Tools & Platforms: Git, VS Code, Jira, Trello, GitHub Copilot, MS Office

EDUCATION

Software Engineering Technology - Artificial Intelligence Advanced Diploma

Sept. 2023 - Present

Centennial College, Toronto, ON

GPA: 4.36/4.5 (A+)

Focus Areas: Machine Learning | Full Stack Development | Testing & QA | Data Structures & Algorithms | Data Analysis

EXPERIENCE

IT and Business Architecture Analyst (Co-op) | Centennial College, Toronto, ON

Jan. 2025 - April 2025

- Assisted with **AI policy development** and conducted research on **Bill 194 (Enhancing Digital Security & Trust Act)**, identifying key compliance gaps for Colleges cybersecurity practices, procedures and policies
- Supported **gap analysis** initiatives, contributing to strategic recommendations for business-IT alignment
- Assisted in organizing **privacy and sustainability workshops**, ensuring adherence to regulatory requirements
- Developed business documentation, including **policies, process maps, and governance frameworks**
- Managed meeting minutes, tracked action items, and coordinated project deliverables with cross-functional teams

Software Engineering Fellow | Headstarter AI (Remote)

July 2024 - Aug 2024

- Selected to participate in a 7-week fellowship, completing 5 AI projects, worked in a team and individually to build projects such as FitB Chatbot and a pantry management app
- Gained hands-on experience with React, Node.js, MUI, Firebase, AWS, and other relevant technologies

Action Canada Hackathon | WIMTACH Technology Access Centre, Toronto, ON

April 2025

- Collaborated in a team of 4 during a 2-day hackathon to develop an AI-driven solution that compares provincial policies based on various parameters, providing potential improvements and predicting their potential impact
- Strengthened problem-solving, teamwork, and communication skills by coordinating effectively under time constraints and delivering a well-received proof-of-concept

PROJECTS

Live Aquaria - JavaScript, React JS, Three.js, Node.js, Express, MongoDB Atlas

- Built an AI-powered fishing app using Google's Gemini API to identify fish species instantly
- Logged catch details (rarity, location, date) and showcased them in a 3D aquarium using React & Three.js
- Integrated a global fishing map with the Leaflet API for interactive catch exploration
- Developed a secure backend with Node.js, Express.js, and MongoDB Atlas for data management

FitB Chatbot - Llama 3.1 - [YouTube Link](#)

- Developed FitB chatbot, which uses Llama 3.1 to assist the user with their health and fitness goals
- Used AWS for the deployment of the application

Pantry Management App - React, Node.js, MUI and Firebase - [Project Link](#)

- Deployed on Vercel and created a management app that allows a user to sign in with Google and keep the record of each individual's pantry list
- Set up data storage in the backend using Firebase

PROFESSIONAL DEVELOPMENT

Microsoft Certified: Azure Fundamentals Certificate	July 2024
Foundational C# with Microsoft freeCodeCamp Certificate	May 2024
Responsive Web Design freeCodeCamp Certificate	June 2024
Introduction to Python Coding Ninjas Certificate	Jan 2023

ADDITIONAL EXPERIENCE

Customer Service Representative (Part-Time) Pioneer Gas Station, Toronto, ON	Sep. 2023 - Present
• Provide friendly, timely and courteous customer service within a high-volume gas station • Uphold cleanliness, as well as health and safety protocol/standards • Collaborate with a team to resolve issues, fostering a positive and productive work environment • Leverage problem-solving skills to identify causes of customer issues, reducing repeat inquiries
